Welding Clamps – Magnets – Pliers – Vises

BUILDPRO SYSTEM

A complete line of heavy-duty and ultra-duty tables for work holding in metal fabrication and woodworking.

ALPHA TABLE OVERVIEW

THE FIVE-SIDED ALPHA WELDING TABLE

The toughest, flattest, hardest working welding tables from BuildPro by Strong Hand Tools. Five sided tables, combined with our patentexclusive, reversible, and replaceable top and side plates.

REVERSIBLE Self-Locating Top & Side Plates

Plate Mounting Detail for Side Plates

Nitrided (Heat-Treated) Tabletop

ALPHA TABLE OVERVIEW

Alpha tables available with 28 mm and 16 mm diameter boreholes.

All top plates constructed from heat-treated steel, hardened to 58-62 HRC.

Finished with a nitrite coating with a case depth of 0.01 – 0.02 mm.

ALPHA 16 TABLES ALPHA 28 TABLES Table Hole Diameter 28 mm 16 mm 100 mm 50 mm **Hole Spacing Table Flatness** 0.3 mm / 1,000 mm 0.3 mm / 1,000 mm **Plate Thickness** 25 mm 12 mm **Tabletop Side Height** 200 mm 150 mm

MAX TABLE OVERVIEW

MAX SYSTEM

REVERSIBLE Self-Locating Top & Side Plates

Table Flatness: 0.3 mm / 1,000 mm Plate Thickness: 16 mm

MAX Slotted Tables

MAX Tables

Maximum Table Surface,

holes than slotted tables.

Maximum Capacity. 33% more

All slotted tables have 40 mm slots between plates.

Standard (plain) or Nitrided Finish

Welding Tables

Our plates are modular on a machined frame.

- The BuildPro machined table frame is more rigid than welded frames used by competitors.
- Our frame has more material and uses full square profile in the tubing. Competitors are basically only forming 3 sides of a square, so it cannot have the same resistance to torsional (twisting) forces.
- Welded frames used by competitors and nitriding of the entire table create distortion. The distortion is strongest in the corners above the legs, which is very important since those areas are used the most.
- Our plate system is flatter because they sit on top of a machined frame.

Plates can be reversed to use both sides. This doubles the table lifespan

BUILDPRO TABLES ADVANTAGES

and provides exceptional value.

Plates can slide out if needed. This allows you to support wider material easily.

RHINO CART OVERVIEW

MOBILE WORKING STATION

A turnkey system for fixturing and clamping in welding and fabrication. Surface ground for flatness on both sides and reversible. Nitrided finish for wear and spatter resistance.

> Comes with a 66pc. or 122 pc. Fixturing Kit

Tabletop Size: 1,200 x 750 mm Thickness: 16 mm Flatness: 0.5 mm / 1,000 mm Hole Diameter: 16 mm Grid Pattern: 50 x 50 mm Table Height: 910 mm Static Loading Capacity: 680 kg

REVERSIBLE Tabletop Weld spatter, rust, and scratch resistant

Locking Casters Mobile or stationary use

Store & Organize Shelves, racks and a pegboard panel

RHINO CART OPTIONS

RHINO CART VS. COMPETITORS

MAX SYSTEM

Our plate is *REVERSIBLE,* doubling its lifespan and providing exceptional value.

Our fixture kit generally provides more fixtures than competitor kits.

16mm Plate Thickness compared to 12mm by competitors. Additional Accessories: Plasma Cutting Tray, Hitch Mount for Vise, Storage Tool Boxes, Turntables,...

Very easy to assemble.

FIXTURE ELEMENTS OVERVIEW

KEY ELEMENTS in the BuildPro Modular Fixturing System

NEW DESIGN

Ball Lock Bolt An essential component in Modular Fixturing!

Finger tighten the knurled head after insertion to preload before tightening with Hex Key.

Three locking steel balls move outward to lock bolt in position.

Quick hold-down clamping of flat, square, angled or round parts.

Locate / Stop

Stop, locate, and position parts.

Support Round Stock

V-Blocks V-Blocks V-Block Spacers D-Stop Bars

Elevate and hold round parts.

Stop / Locate / Elevate

Stop and locate parts.

Stack Right Angle Brackets to elevate and hold round parts.

FIXTURE ELEMENTS OVERVIEW
